Connecticut Pharmacy Portfolio

Five operating retail pharmacies | FY2025 financial profile

\$49.6MM

FY2025 Revenue

\$3.0MM

Adjusted EBITDA

5

Locations

6.1%

EBITDA Margin

Executive Summary

Operating scale: Five established Connecticut retail pharmacies generating \$49.6MM in FY2025 sales and \$3.0MM of Adjusted EBITDA at the portfolio level.

Geographic footprint: Confirmed locations in Bridgeport, New Haven, and Waterbury, three of CT's larger urban prescription markets, plus two additional CT operating sites.

Revenue durability: Pharmacy script-driven revenue with recurring fill patterns; Main Street #2 anchors the portfolio at \$16.8MM in sales and 8.7% EBITDA margin.

Transaction structure: Available as a single-portfolio package or in subgroups. Buyer should expect customary cash-free, debt-free working-capital adjustment at close.

AT A GLANCE

Revenue and Gross Profit by Location

FY2025 Revenue (\$MM)

FY2025 Gross Profit (\$MM)

Observation: Main Street #2 contributes **33.8%** of revenue and **35.4%** of gross profit. URX LLC and URX 6 LLC operate at differentiated GP margins (21.8% and 14.1% respectively), reflecting payer-mix and product-mix variation that warrants buyer-side review.

EBITDA Bridge: Reported NOI to Adjusted EBITDA

Portfolio reconciliation, FY2025 (\$'000s)

Owner Comp Concentration

Management/owner comp add-backs total \$1.14MM across the portfolio. The two largest sit at MSP #2 (\$444k) and URX 6 (\$410k). Replacement-cost mgmt salary should be tested.

Real (Cash) Interest at URX 6

\$292k interest expense relates to the \$4.29MM Live Oak acquisition loan. Treated as add-back here per standard EBITDA convention; cash debt service materially affects post-close cash flow.

URX 3 Add-Back Detail

\$170k owner-comp add-back includes \$20k explicitly in P&L plus \$150k carved from total Payroll Expense. Buyer should request payroll register for confirmation.

Adjusted EBITDA and Margin by Location

EBITDA Margin Profile

Portfolio Blended 6.1%

Margin range of 4.1% – 8.7% reflects mix of acquired vs. mature stores. URX 6's lower margin is driven by recent acquisition costs (interest, amortization) flowing through the P&L.

Detailed Financial Profile by Location

(\$)	Main Street #2	URX LLC	URX 2 LLC	URX 3 LLC	URX 6 LLC	Total

Capital Structure & Working Capital Notes

Long-term debt: URX 6 LLC carries \$4.29MM Live Oak Bank acquisition loan; URX 6 also holds the portfolio's \$2.78MM net goodwill/intangibles balance from the underlying acquisition.

Working capital: Three entities (MSP #2, URX 2, URX LLC) report zero inventory despite material COGS, suggesting periodic accounting; physical inventory count expected at close.

Intercompany balances exist within and outside the sale group and require resolution pre-close.

Investment Highlights

Established Top-Line

\$49.6MM in FY2025 sales across five operating sites; meaningful scale that's hard to assemble organically in CT's licensed pharmacy market.

\$3.0MM Adjusted EBITDA

Reported Adjusted EBITDA of \$3.05MM at the portfolio level supports an attractive purchase price under conventional pharmacy acquisition multiples.

Connecticut Density

Confirmed locations in Bridgeport, New Haven, and Waterbury, three of CT's larger urban prescription markets. Geographic clustering enables shared management and purchasing.

Existing Operating Team

Each entity carries an established payroll base (\$0.6MM – \$1.2MM per site) with on-site pharmacist staffing already in place; reduces post-close hiring risk.

Flexible Deal Structure

Available as a single-portfolio package or in subgroups; seller open to standard cash-free, debt-free structure with working-capital target.

Margin Improvement Levers

Spread between top-margin (URX LLC at 21.8% GP) and bottom-margin (URX 6 at 14.1% GP) sites suggests purchasing, payer-mix, and ops-standardization upside under unified ownership.

➔ *Buyers seeking a turnkey CT retail-pharmacy platform with immediate scale and identifiable margin-expansion paths.*

Diligence Considerations

Items Buyer Should Plan to Diligence

HIGH	URX 6 Acquisition Debt & Goodwill \$4.29MM Live Oak loan; net \$2.78MM goodwill/intangibles. Confirm loan terms, prepayment penalty, and treatment at close (assume vs. payoff).
HIGH	Owner Compensation Add-Backs \$1.14MM total mgmt-comp add-backs across portfolio. Validate replacement-cost market rate; specifically request payroll register supporting URX 3's \$150k carve-out.
MED	Working Capital and Inventory Three entities show \$0 inventory despite material COGS. Physical count and working-capital target negotiation required.
MED	Real Estate / Lease Portfolio Rent expense ranges from \$22k to \$120k by site; verify lease terms, expirations, related-party arrangements, and assignability.
MED	Intercompany Loans Receivables exist from URX 4 and URX 5 (entities not in sale). Resolve pre-close: collect, exclude, or assign.
STD	Regulatory Transfer Confirm CT pharmacy licenses, DEA registrations, and PBM contracts assign cleanly under chosen deal structure.

Available to Qualified Buyers

- FY2025 P&L by entity (DRAFT)
- FY2025 balance sheets by entity
- EBITDA bridge with add-back detail
- Lease summary by location
- Pharmacy license / DEA status
- Top payer concentration (on request)
- Script volume trends (on request)
- Three-year historical financials (on request, NDA)

All figures should be confirmed by buyer's own QofE prior to definitive agreement.

Next Steps for Interested Parties

01

Sign NDA

Mutual non-disclosure agreement signed before access to detailed financial package.

02

Submit IOI

Indication of Interest with proposed valuation range, structure, and financing approach.

03

Management Diligence

Q&A sessions, site visits, and access to full diligence data room (financials, leases, licenses).

04

Definitive Agreement

LOI selection, exclusivity period, definitive purchase agreement and closing.
